The Source for Quality Hispanic Engineers and Technical Talent

The Society of Hispanic Professional Engineers (SHPE) is the nation's premier Hispanic technical organization. Its quarterly magazine, *SHPE*, is the voice of the Society and its members trust and value its content. The publication is mailed directly to all members, thus ensuring that employers' messages reach their targeted audience in a timely and efficient manner.

The Society of Hispanic Professional Engineers (SHPE) has many strategic goals that focus on education, community outreach, professional growth and development. These goals have guided SHPE's mission to assist their members to fulfill their ambitions while also encouraging Hispanics to pursue technical degrees in college.

SHPE: The Magazine— Bringing YOUR Message to our Members

SHPE Magazine is the quarterly "voice" of the Society and is the Official Magazine of the Society of Hispanic Professional Engineers. Every issue focuses on articles developed to promote awareness of job opportunities and career options.

SHPE Magazine's 15,000 circulation puts advertisers in direct contact with the Society members—each member receives a personal copy in the mail. In addition, other technical Latinos receive the magazine through their Minority Engineering Program (MEP) advisors as a complimentary tool to assist them in realizing their full career potential.

Conference Issue

The National Conference is the nation's largest technical conference for Hispanic students and professionals. The 2011 Conference, to be held October 26-October 30 in Anaheim, California, will draw approximately 5,000 members to its diverse events, workshops and career fair.

As a special bonus, all advertisers in the Conference Issue will receive a laminate of their ad to display at your booth and take home to your lobby (sample shown above).

The Conference Issue will include the Program Guide and all attendees in Anaheim will receive personal copies of the issue in their Registration Bag. It will be the ONLY publication distributed to all attendees, making it THE essential advertising tool for employers and universities.

The Added Bonus of the Digital Issue

SHPE Magazine advertisers receive an important added value benefit. Every member of the Society also has the opportunity to access the issues online. This benefit is free to members and all advertisers in the magazine are included in the digital issue.

Members receive an e-mail with a link to the digital issue as each issue is published. The latest issue then loads in their browser where they can access the complete issue. The interface is highly intuitive featuring keyword searches, the ability to forward the issue to other engineers, the option to save it to their desktop and much more. As an advertiser, your advertisement is a live link to your website. So members are one click away from your opportunities! To view a sample issue of *SHPE* Magazine, in digital format, please visit <http://www.nxtbook.com/nxtbooks/shpe/conference10/>.

“SHPE Magazine supports the Society’s mission of promoting the development of Hispanics in engineering and science while providing companies with a great

way to reach our members as they begin and advance through their careers.”

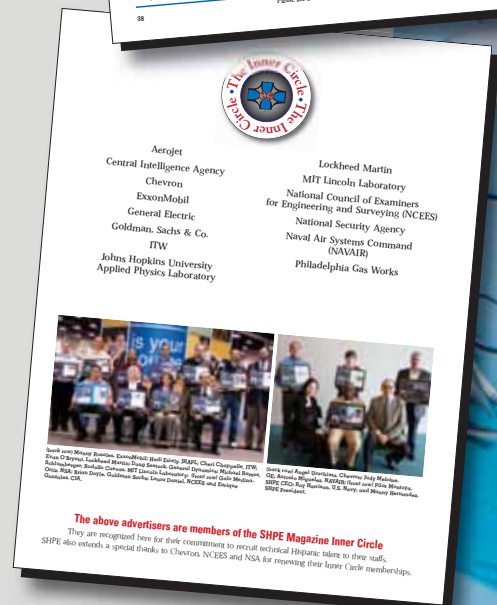

–Manny Hernandez
SHPE National President

SHPE’s Inner Circle

SHPE’s Inner Circle is an exclusive, highly-valued group of employers that partner with *SHPE Magazine* to brand their organization as an “Employer of Choice.” To qualify, an employer must support the magazine with a full-page advertisement in each issue. In recognition of their support, SHPE Inner Circle members will receive:

- A special listing on page one of every issue of **SHPE Magazine**.
- A commemorative plaque from **SHPE** to be presented at the Anaheim Conference.
- Preferred positioning in the magazine throughout the year.
- A button from the **SHPE** website connecting members to your web site.
- High School Sponsor: 50 copies of **SHPE Magazine** sent to a high school designated by the advertiser, in their name. These copies will be distributed to students to positively influence their consideration of technical studies in college.
- An optional bonus full page profile on either the employer or a specific Hispanic employee within the organization in one issue of **SHPE Magazine**.
